EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Oleg Kaplun on 14 Sept 2010.

The application has been amended as follows:

Claims 24-36 have been canceled.

Claim 38 has been replaced by the following:

The bone plate of claim 37, wherein an inner wall of the coupler defining the opening is threaded to threadedly engage a threaded head of a bone fixation element inserted therein.

Election/Restrictions

Claims 2-7, 13, 15-16, 20, and 37-40 are allowable. The restriction requirement between species, as set forth in the Office action mailed on 27 Dec 2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 8-12, 17-19, and 21-23, directed to the subspecies of a different number of swivel joints and different

Art Unit: 3775

types of through-bores, are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 24-36, directed to pedicle screws and intervertebral implants, remain withdrawn from consideration because they do not all require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

This application is in condition for allowance except for the presence of claims 24-36 directed to a species non-elected without traverse. Accordingly, claims 24-26 have been cancelled.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL T. SCHAPER whose telephone number is (571)270-7413. The examiner can normally be reached on M-F, 7:30am-5:00pm.
